DETAILED ACTION

Status of Claims

1. This action is responsive to amendment filed on January 19, 2009, where Applicant amended claims 1,3,5-10,12. Claims 1-3,5-13 remain pending.

Response to Arguments

2. Applicant's arguments, filed 1/19/09, with respect to claims 1-3,5-13 have been fully considered and are persuasive. The rejection over Valadarsky has been withdrawn.
3. A new 101 rejection follows below.

Claim Rejections - 35 USC § 101

4. Claims 1-3,5-13 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. While the claims recite a series of steps or acts to be performed, a statutory "process" under 35 U.S.C. 101 must (1) be tied to particular machine, or (2) transform underlying subject matter (such as an article or material) to a different state or thing. See page 10 of In Re Bilski 88 USPQ2d 1385. The instant method claims are neither positively tied to a particular machine or hardware element that accomplishes the claimed method steps, nor do the claims perform transformation of underlying subject matter into a different state or thing. This therefore presents the claim in a manner that is broad enough where the claim could be completely performed mentally, verbally or without a machine or without any apparent transformation of underlying subject matter. Since neither of the above mentioned

requirements are met, the method claims are not a patent eligible process under 35 USC 101 and are deemed as non-statutory subject matter. **(MPEP Section 2106.IV.B and 2106.IV.C)**
